EDUCATION

Georgia Institute of Technology

Master of Science in Computer Science

Atlanta, GA

2027-2029 (*Expected*)

Brock University

Bachelor of Science in Computer Science

St. Catharines, Ontario

2025

PROFESSIONAL EXPERIENCE

Bellman Assistant

Present

Hyatt Regency

Niagara Falls, ON

- Assist guests with luggage loading, transport between vehicles and rooms, and storage and retrieval, supporting smooth arrivals and departures.

Pro Shop Team Lead (Seasonal)

Apr. 2023 – May 2026

Grand Niagara Golf Club

Port Robinson, ON

- Replaced paper-based membership pass verification by designing and deploying a Java/Swing desktop application with a searchable database interface, streamlining customer check-in and reducing manual lookups.
- Worked alongside a range of launch monitors, including TrackMan, gaining practical familiarity with sports performance technology in a golf operations environment.
- Troubleshoot point-of-sale, network, and printer issues across the facility, resolving technical problems and improving hardware configurations to support daily staff workflows.

Information Technology Support Technician (Intern)

Sep. 2022 – Dec. 2022

Shared Services Canada

Ottawa, ON

- Performed weekly server health checks and routine maintenance to identify infrastructure issues early and support reliable federal IT services.
- Supported a fleet of 100,000+ mobile devices through centralized Mobile Device Management tools and maintained role-based access controls across enterprise systems.
- Triaged and resolved IT support tickets, including account resets and mobile device access permissions.

PROJECTS

Gymrocks | *Swift, SwiftUI*

- Built and published an iOS strength-training app on the Apple App Store using Swift and SwiftUI, giving users a native interface for managing workouts and reviewing training recommendations.
- Implemented double-progression algorithms and per-exercise trend tracking to translate training performance into weight and intensity recommendations, helping users plan their next session.
- Designed offline-first local storage and deep-link routine sharing so users could access training data without connectivity and exchange routines across devices.

Consistify | *Flutter*

- Built a Flutter mobile app to help users sustain healthy habits, combining habit tracking with social accountability and community incentives in one interface.
- Implemented a points-based reward system to show habit progress and reinforce consistent participation.

CourseMix | *Next.js, React, TypeScript, Supabase*

- Built and deployed a full-stack academic planning app with Next.js, React, and TypeScript, helping 25+ active Brock University students organize course selection and scheduling.
- Implemented prerequisite and degree-requirement logic backed by PostgreSQL through Supabase to generate personalized course paths and graduation projections from limited academic data.
- Added encrypted grade storage and deployed through Vercel with a CI/CD pipeline, supporting private academic records and repeatable application updates.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Swift, Java, Python, SQL, HTML/CSS

Frameworks: React, Next.js, SwiftUI, Flutter, Node.js, Java Swing, Tailwind CSS

Data & APIs: PostgreSQL, MySQL, Supabase, REST APIs, JSON, Local Data Persistence

Tools & Practices: Git, GitHub, Vercel, CI/CD, Jira, Agile/Scrum, UNIX/Linux
